DESIGNER LINE

LIBRARY FURNITURE

...a cooperative creation!

*Totally functional  
library furniture  
in a dramatic new  
concept of design!*

Here is *totally functional* library furniture that beautifully integrates use, structure and material in perfect harmony.

Here is mastery of craftsmanship skillfully blending the design concepts of librarians, architects and engineers in a cooperative creation — *the first of its kind!*

Warm natural woods or plastics blending with lustrous, satin-finish aluminum in graceful contours give DESIGNER LINE furniture its distinctive design, simple beauty.

A unique engineering feature — "pinned-in" construction — masterfully fashions the functional purpose of each material in unison. Legs of steel encased in aluminum unite with slenderized aluminum under-structures to achieve maximum strength and rigidity.

Here is furniture that expresses the ultimate in functional efficiency and tasteful styling that is destined to be the timeless answer to your library needs.

Write for more information.
